

AMENDMENTS TO THE DRAWINGS

Figures 1-8 are enclosed with the label "Prior Art" in redline as requested by the Examiner.

REMARKS

In the Office Action dated June 13, 2005, the Examiner objected to the drawings. In a first objection, the Examiner states "[b]lack boxes in Figs. 1, 8-9, 24-26 and 36 lack descriptive labels." Applicants' representative does not understand this objection. Many of these drawings have been used in previous patent applications that have issued as patents. All portions of the drawings referenced in the text of the current application are numerically labeled, and referenced by the numeric labels. Applicants' representative does not understand what constitutes a "black box" in these figures, nor has the Examiner cited authority for the objection. Therefore, until further clarification is provided, Applicants' representative cannot address the first objection. Applicants' representative encloses redlined drawings to address the Examiner's second objection with regard to the need for "Prior Art" labels.

Favorable consideration and a Notice of Allowance are earnestly solicited.

Respectfully submitted,
Joseph H. Steinmetz et al.
